PROFILE

Dajani Agribusiness is a professional landscape architecture company established in 1991 by Engineer **Maher Dajani** who came back to his hometown Amman after taking the greatest experience and knowledge in fruit and ornamental trees from France and other European countries with one clear vision. Finding a company that combines modern techniques and knowledge to be specialized in the integration of complete landscape solutions and the fruit industry.

Over the past years **Dajani Agribusiness** became one of the pioneer landscaping companies in Jordan, offering all kinds of landscape services from hardscape design -as outdoor rooms, pavings, stone walls, BBQs, water features, swimming pools, pool houses, wood structures, pergolas and gazebos-. Softscape design -as plants selection, distribution, specifications, BOQs- Supplies, installation & planting.

HISTORY

Since **1991** we had built a high caliber reputation by emphasizing on the appreciation of the overall project including the marriage and connection between the building, waterscape, woodworks and all landscape elements. Each design reflects the unique character of its owner, the site and the budget.

As fruit experts in Jordan & the region, Dajani agribusiness offers a wide range of services & products for the fruit trees supply, consultation and project management to turn key projects.

FRESH-LINE is the brand of quality fruit produced under a very strict quality control management and Global GAP certified.

France, Where the finest top fruits are produced, and natural smells fill the air, knowledge and experience of modern fruit trees cultivation, management and production of finest – IPM “Integrated pest management” – top fruits, made us one of the leaders in Jordan in IPM applications, and the leader in dense planting modern techniques for the production of high quality top fruits.

Landscape design

The power of a good design “Design is our ambassador...”

Our good design is a constant challenge to balance comfort with luxury, the practical with the desirable. The unique ideas: each is a limited edition. Design is not just what it looks like and feels like. Design is how it works.. how it functions.. and how it serves.

Over the years.. Dajani Agribusiness **design team** has learned many great tricks and creative ideas to customize any scale project to become your unique haven.

The neverending attention to details from design to maintenance made Dajani Agribusiness your destination for any landscape project of any scale.

Hardscape and Wood Works

Design is not just what it looks like and feels like. Design is how it works; define your outdoor space and bring symmetry between the house and garden with hard elements. Landscaping not only includes enjoying the live elements of nature but also includes the **non-living elements** such as stone and wood, to use it and enjoy its beauty. Give your landscape distinction with pavers, Stone-scapes and outdoor structures. When designed with vision and style, hardscapes create functionality while beautifying the architecture of your home into the outdoor environment.

We can provide both beautiful aesthetic value and functional features for your property. Hardscapes in Dajani Agribusiness are works of art. Each unique design uses color, texture and dimension to bring one-of-a-kind elegance to the finished project. Our crews have hands-on experience to install Patios, Stone-scapes, walkways, Terraces, Driveways, Arbors, Pergolas, Gazebos, Pools, Decks, and Concrete works.

Irrigation System

Irrigation system it is a man-made system, where parts are joined together in order to supply the plants/trees with the required amount of water needed for their survival that is not satisfied by rainfall.

For that reason Dajani Agribusiness adopted smart Irrigation systems to recognize advances in irrigation technology and practices that produce not only more but also higher quality plants with less water, it is installed to provide minimal maintenance.

Automated systems reduce the hassle and increase the benefits with high efficiency.

Garden Care

We may think we are nurturing our garden, but of course it's our garden that is really nurturing us.

Once your garden is established or already established; our role doesn't end there; we guarantee that your garden maintains its health all year round, starting in autumn by planting lawns, ornamental trees, and winter bulbs, and by pests and diseases control.

We are always doing maintenance and repairs on our lines, making sure everything is perfect and in working order, our job is to insure the continuous flourishing of your garden during all seasons, especially during the hard winter and to have the pruning process left for January!

Residential project

2014-2015 | Dabouq

The Kevorkian Residence

An effective landscape design successfully combines nature, function and an aesthetically pleasing and utile concept. In contemporary practice, landscape design bridges between landscape architecture and garden design.

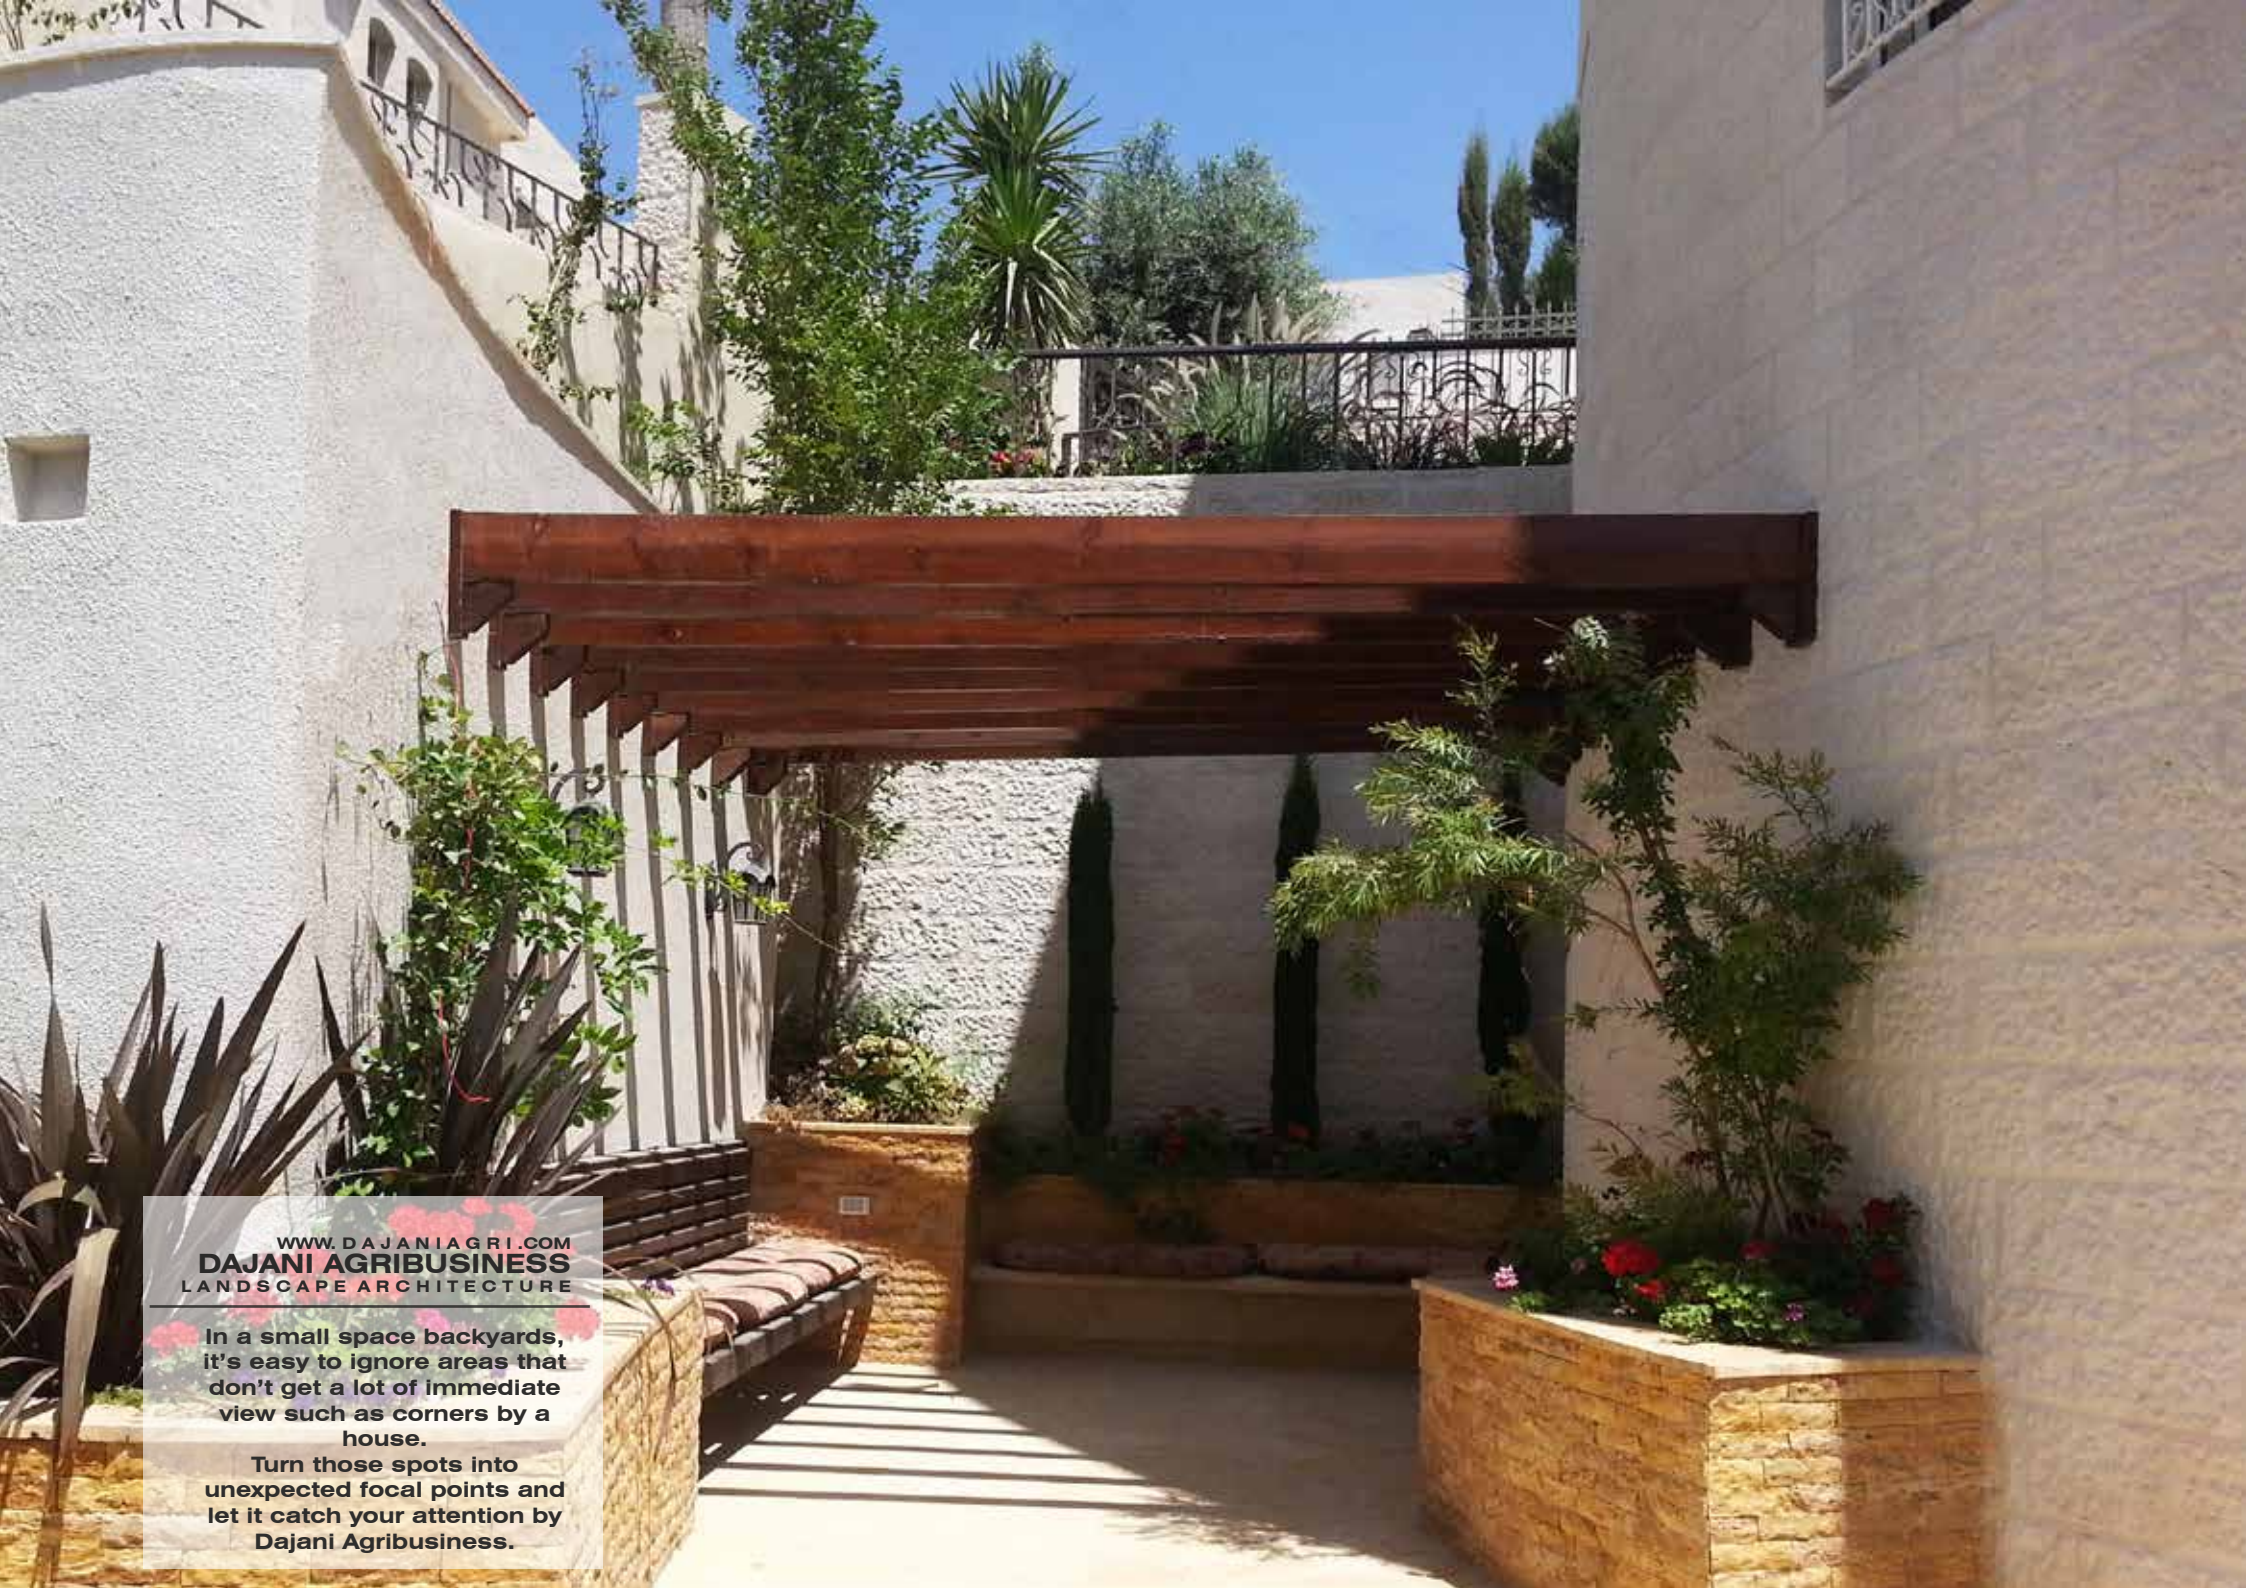

The Kevorkian residence in Dabouq initially featured a vast space that was not utilized to its maximum potential and that was not functional or effective. Dajani agribusiness led a transformation process that took into account an extensive site analysis, the utility requirements, space distribution and functions to create and execute an action plan. The strategy took into consideration sitting areas, water features, sun and shade distribution and even color management.

WWW.DAJANIAGRI.COM

A total revamp of the site took place with the full faith of the Kevorkian family in the Dajani Agribusiness vision. All the hard and soft landscape materials, including the wood-work, were carefully selected to be in line with the design vision of using local and natural elements.

Aesthetically, the concept proved to be visually pleasing. While the garden is yet to fully mature, it exhibits all the factors that make it a place of joy, tranquility and purpose. Dajani Agribusiness set out to transform the space into a private little paradise where a love for nature could be present along with a sense of purpose that aligned with functionality, gathering family and friends.
